

# Warranty

## SPEL Underground Tank Shells

We warrant that our Tankstor® and Separator underground tank shells, if installed strictly in accordance with the company's relevant installation procedure (TSII) - having in mind particularly:- ground conditions, invert depth, water table depth in winter, external loading, type and quality of backfill material, will

1. meet our published specifications and will be free from material defects in materials and workmanship for a period of one year following date of original delivery.
2. not fail for a period of twenty-five years from date of original purchase due to external corrosion; and
3. not fail for a period of twenty-five years from date of original purchase due to internal corrosion provided the tank is solely used for:-

Rainwater storage  
Potable water at ambient temperatures  
Fuel/oil contaminated surface rainwater  
Domestic sewage.

For other applications the life expectancy will be determined by the contents, the operating conditions and the resin system/reinforcement specification used.

Our liability under this warranty shall be limited to, at our option,

- (1) repair of the defective tank
- (2) delivery of a replacement tank to the original site or
- (3) refund of the original purchase price.

We shall not be liable for any labour or other installation costs, indirect or consequential loss, damage or other damages in connection with such tanks.

Accessory warranties do not extend beyond the warranty period by our suppliers. This applies to such items as access covers and frames, monitoring equipment, Bauer type connections for emptying, pumping equipment or any accessories as defined in the company's official order acknowledgement/invoice.

The foregoing constitutes our exclusive obligation and we make no express or implied warranties, or any warranty of merchantability or fitness for any particular purpose whatsoever, except as stated above.
